Travelnauts partner portal: how to answer our requests

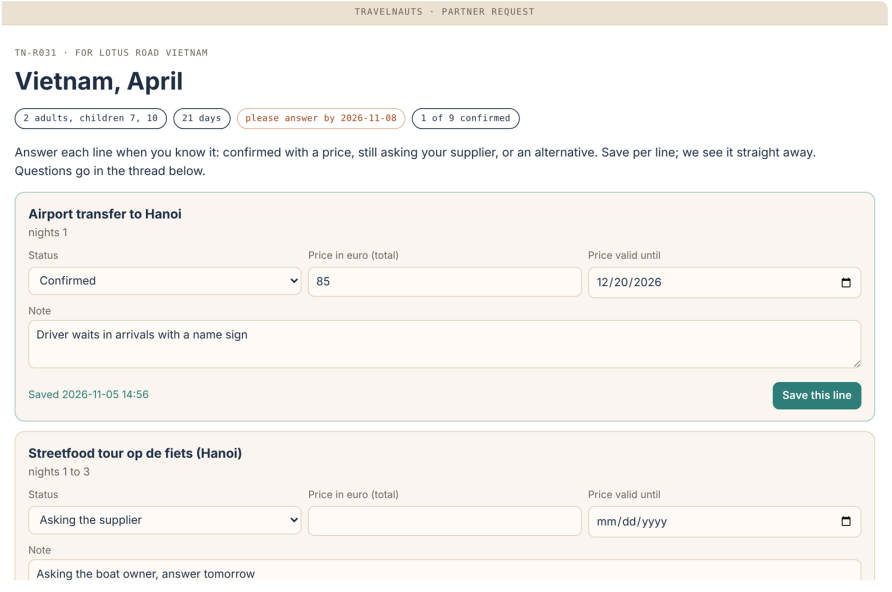

Every request we send you now comes with a personal link. Open it on your phone or computer and answer line by line: what is confirmed and at what price, what you are still asking your hotel or driver, and what you can offer instead. No account and no password. We see each answer the moment you save it, so there is no need to wait until everything is complete.

Replying to our mail still works. The portal is simply faster for both of us when an answer comes in pieces over several days.

Step by step

1. **Open the link in our request mail.** It is personal to your company and to this one request. Keep the mail; you can come back to the link as often as you like.
2. **Read the top.** Our reference (for example TN-R031), the destination and month, the party (adults and children's ages), the number of days, and the date we would like an answer by.
3. **Answer each line when you know it.** Every transfer, excursion or room is its own line. Pick a status, fill in the total price in euro for the whole party and, if your price has an end date, the date it is valid until. Add a note if useful ("driver waits in arrivals with a name sign").
4. **Press Save this line.** We see it straight away. Lines you have not answered yet simply stay "Not started".
5. **Come back when you know more.** Change a line from "Asking the supplier" to "Confirmed" the moment your hotel or driver answers.

The five statuses

Status	Use it when	Fill in
Not started	You have not looked at this line yet	nothing
Asking the supplier	You asked the hotel, driver or guide and wait for them	a note with when you expect an answer
Confirmed	It is available and the price is known	the total price in euro, and the valid-until date if there is one
Alternative offered	What we asked is not possible, but something else is	the alternative and its price; we accept it with one click
Not available	It cannot be done and you have nothing similar	a short note why, if you know

Good to know

- **Questions** go in the thread at the bottom of the page. A colleague at Travelnauts answers there, and you see the answer next time you open the link.
- **Alternatives:** describe them in one line ("Kandy Hills Hotel, family room") with the price. If we accept, the line turns to Confirmed and the thread says "please book it".
- **PDF offers or vouchers:** use Upload a PDF offer. PDF only, up to 5 MB.
- **Prices with an end date:** fill in Price valid until. We plan around it and ask again if the family books later.
- **Reminders:** while you are working on the request in the portal, we do not send reminder mails.
- **What we never share:** the family's name, address, phone or mail. You see our reference, the route, the dates and the ages of the children, nothing more.
- **The link stops working** when the family has left on their trip, or when we send you a new one. Lost the mail? Ask us and we send a new link.
- **Problems** with the portal: reply to our mail as you always did. Nothing is lost.
